

INVENTORY

Know what you have, and be able to find it when you need it!

Visibility and Control Over Your Inventory

- Define an unlimited number of items with user-defined categories for easy lookup
- Use different units of measure for purchasing, stocking, and delivery for each item (the system automatically converts these units based on user-defined conversion tables)
- Monitor inventory with perpetual quantity tracking and physical count reconciliation
- Maintain multiple pricing levels in order to easily charge clients different prices
- Make your pricing updates simple and easy with import capabilities
- Maintain an unlimited number of alternate stocking locations, warehouses, and trucks, and track separate inventories for each location
- Post costs directly to Job Costing
- Track inventory usage through UPC software and import directly into FOUNDATION
- Powerful reporting capabilities:
 - **Inventory Detail Report – Usage Detail, Usage Summary, Usage Tracking**
 - **Item Profitability Report**
 - **Inventory Job Usage**
 - **Reconciliation History**
 - **Maximum/Minimum Reorder Points and Reporting**
- Inventory interfaces with Job Costing, General Ledger, Accounts Payable, Purchase Order/Subcontract, Accounts Receivable, Equipment, and Time and Material

Maintain alternate stocking locations with no problem!

“ Before FOUNDATION, we had real problems tracking our inventory and equipment. **Now things that used to be a pain** – tracking separate stocking locations, tracking job equipment usage, or creating work orders to track routine maintenance and repairs – **are easy!**

– DAN R., VP OF FIELD OPERATIONS ”
