

SCHEDULING

It's a proven software tool that will save you time and keep things running smoothly...

There's a better way to schedule

Track Tasks and Resources to Keep Jobs on Schedule

- Set up, track, and view project schedules for budgeted and non-budgeted jobs
- Pinpoint the exact resource requirements of each project – at a glance – with a simple-to-read Gantt chart
- Use simple drag-and-drop technology to change the time frame and order of tasks
- Assign resources such as employees, equipment, subcontractors, materials and more to tasks, and change their assignments to resolve over- or under-allocation
- Assign predecessor/successor relationships to tasks to ensure that all work is performed and completed in the proper sequence
- Analyze project data with pre-defined reports such as Detailed Schedule and Summary Schedule
- Utilize built-in, online help to maximize understanding and usage of FOUNDATION's scheduling module

“ FOUNDATION's reporting is some of the best I've ever seen, and the system's document tracking and scheduling let me manage paper flow and allocate resources. This helps me make good decisions and eliminate problems down the road. – JOHN P., PROJECT MANAGER ”
