

Below are the tech recommendations for the WorkMax mobile App, ConnectMax, and the WorkMax Control Center.

WorkMax mobile App

Recommended Mobile Device

Although the mobile app may work with operating system versions earlier than what is listed below, you may experience performance or other issues.

Brands

- Apple
- Samsung®
- Google®
- Motorola

Apple®

- iOS® 15 or later

Android™

- OS 7 or later
- Snapdragon 600 or later
- 4GB of RAM

ConnectMax

Recommended Laptop/Desktop

Recommended laptops and desktops for ConnectMax:

- Microsoft® Windows® 10 or later
- Apple macOS® 10.14 or later
- 8GB RAM
- Storage: Minimum of 2GB free
- Quad core + processor

Recommended Server

WorkMax uses ConnectMax to connect to your accounting database to sync your employees, locations, tasks, and assets to the WorkMax Control Center. If your accounting database resides on a server, we recommend the following server specifications:

- Microsoft Windows Server® 2016 with the latest security updates
- Microsoft Windows 10 or later
- 8GM RAM
- Storage: Minimum of 2GB free
- Quad core + processor

WorkMax Control Center

Recommended Laptop/Desktop

- Google Chrome™ or Microsoft Edge® with the latest update
